

EXPERT REPORT OF LAURENCE D. LIEB, OSFCE, MFCE

Introduction

1. My name is Laurence D. Lieb. I am the President of Tyger Forensics Inc., which provides, among other things, computer forensics and electronic discovery services to litigation attorneys and their clients. I am a Passmark OSForensics Certified Examiner and a Magnet Forensics Certified Examiner. I am also a licensed private investigator in the State of Michigan.

2. To obtain my certification as an OSForensics Certified Examiner, I undertook training led by Passmark. To remain certified, I am required, from time to time, to retrain and pass certification examinations for new software versions. A true and exact copy of my certification is attached as part of **Exhibit A** and incorporated by reference.

3. To obtain my certification as a Magnet Forensics Certified Examiner, I undertook online training led by Magnet Forensics. To remain certified, I am required, from time to time, to retrain and pass certification examinations for new software versions. A true and exact copy of my certification is attached as part of **Exhibit B** and incorporated by reference.

4. I counsel and assist clients in the preservation, extraction, and analysis of electronic data, using industry-standard practices, based on evidence personally analyzed, and form expert opinions regarding human interaction with electronic data from smartphones, computers, cloud-based sources, and a myriad of other electronic devices. I have been retained for this type of work around the country by numerous clients, as described in my curriculum vitae, which is attached as **Exhibit C**.

5. I have been retained by Snider Fleet Solutions, and its counsel, Fisher & Phillips LLP, to provide expert opinions regarding my forensic analysis of a Microsoft Office365 data loss prevention system report, a Snider laptop computer and documents.

6. My hourly rate for this matter varies by task as follows: for pure forensic analysis & reporting, \$350 per hour; for written declarations, depositions, and other sworn testimony, \$450 per hour. My fees are unrelated to the outcome of the matter. My curriculum vitae, attached as **Exhibit C**, lists my testimonial experience for the last four years and all my publications for the last ten years.

7. This report is based on my personal knowledge, experience, and expertise in the area of forensic analysis of electronic devices. It is also based on my review of the information contained within a report I generated from Snider Fleet Solutions's Microsoft Office365 Compliance system regarding activities performed by Snider Fleet Solutions's former employee, Jonathan Nelson and a Snider laptop reported to belong to Jonathan Nelson.

8. I reserve the right to render additional opinions, to supplement or amend the opinions in this report, and to provide additional grounds for those opinions based on my ongoing analysis of the materials provided to me or as may be required by events that occur during the course of this Litigation, including but not limited to responding to or analyzing positions taken by Nelson or his experts.

Forensic Preservation

9. It is critical to use "Best Practices" when conducting a forensic examination. "Best Practices" are defined as use of industry-standard chain of custody forensic software that will preserve and maintain which specific person has sole control over a specific single source of electronic evidence up to a time and date certain. It also includes the use of tools and methodologies that do not make changes to the underlying electronic evidence in any way. If the proper standardized software is not used, it can result in the underlying data being changed or otherwise distorted. The software, tools, and methodologies that I used to conduct my forensic examination comport with these "Best Practices."

10. On April 20, 2023, I preserved a Microsoft Office365 Compliance report directly from Snider Fleet Solutions' Microsoft Office365 account ("Report"), which is attached as **Exhibit D** and incorporated herein by reference.

11. On Apr 21, 2023, I used an industry standard forensic Tableau TX1 duplicating device to generate a physical bit-for-bit forensic image of a Dell Latitude 3520, serial number S7D7C3DL3, with an internal Samsung model MZ-9LQ256C, serial number S660NE3RB70218 internal hard drive ("Laptop").

12. I used an industry standard too, Magnet Forensics Axiom, to carve and recover deleted files from the Laptop, make a searchable index of the Laptop's files, including the Axiom-recovered deleted files, and enable me to perform forensics analysis of the Laptop.

Interesting Search Terms Run By Nelson on the Laptop

13. Forensic analysis of the Laptop revealed Nelson running a Google search for the exact words "resignation letter example" on 12/30/2022 9:41:10 AM¹.

14. Forensics analysis of the Laptop revealed Nelson running a Google search for the exact words "crucible chemical piedmont" on 1/24/2023 2:31:30 PM².

Evidence of File Deletion by Nelson from the Laptop

15. Forensic analysis of the Laptop revealed Nelson deleting the fourteen files listed below in **Table A** on 1/24/2023 and 1/27/2023.

¹ 1.E01 - Partition 3 (Microsoft NTFS, 237.86 GB)\pagefile.sys offset 592365056

² 1.E01 - Partition 3 (Microsoft NTFS, 237.86 GB)\Users\jnelson\AppData\Local\Google\Chrome\User Data\Default\History

Table A – Files Deleted From The Laptop on 1/24/2023 and 1/27/2023

Nelson Controls Multiple Gmail Email Addresses

16. Forensic analysis of the Laptop revealed that Nelson has multiple Gmail accounts, including tigersjpn@gmail.com, alwaysgetrekt1@gmail.com, 45ColtGamer@gmail.com, and bjnelso@gmail.com³.

Evidence of Nelson Downloading Files From His Snider Office365 Work Account

17. The Office365 Report recorded Jonathan Nelson accessing his former Snider Fleet Solutions Office365 account on January 27, 2023 and January 29, 2023 and downloading the documents listed below in Table B.

Table B – Files Downloaded From Nelson’s Former Work Office365 Account

DOWNLOAD DATE AND TIME (UTC)	FILE NAME

³ 1.E01 - Partition 3 (Microsoft NTFS, 237.86 GB)\Users\jnelson\AppData\Local\Google\Chrome\User Data\Default>Login Data For Account

18. Forensic analysis of the IP addresses contained within the Report identified Jonathan Nelson accessing his former Snider Fleet Solutions' Office365 account and downloading the Table A files from two different internet service providers, Verizon and AT&T.

19. The eighteen files downloaded on 01/29/2023 were downloaded using a Verizon Communications network and the one file downloaded on 01/27/2023 was downloaded using an AT&T Internet Services network:

- 1/29/2023 IP Address: 2600:1004:a041:7318:9463:5bd0:d771:2e17 equates to Verizon

Nelson's Samsung Galaxy A5 Smartphone

20. Forensic analysis revealed Nelson last connecting a Samsung Galaxy A5 smartphone serial number 6&7d8b9a1&0&0001 ("Smartphone") to his Snider work laptop on January 19, 2023 at 3:26 PM, CST as seen in the screenshot taken directly from the Axiom database of the Laptop below⁴. Per the Smartphone's manufacturer, Nelson's Smartphone can be used to transfer files from a computer to the Smartphone⁵.

Nelson Copied Multiple Files to an External ASolide Generic USB Drive from the Laptop

23. Forensic analysis revealed Nelson first connected an ASolid generic USB drive, serial number 36454814&0 (“ASolid USB drive”), to the Laptop on 12/14/2022 1:00:00 PM and then last connected the ASolid USB drive to the Laptop on 1/25/2023 8:15:00 PM⁷. ASolid is the name of the Chinese company who manufactures, amongst other products, generic USB drives which can be purchased on Amazon.

24. Forensic analysis of the Laptop revealed Nelson backing up his Snider email account on 12/15/2022 2:27:28 AM⁸ to a file named “backup.pst” to the ASolid USB drive and then accessing this “backup.pst” email archive file again from the ASolid USB drive on 1/24/2023 9:04:52 PM⁹.

25. Forensic analysis revealed evidence that Nelson accessed the files and folders listed below in in Table C while the ASolid USB drive was connected to the Laptop. Windows assigned the drive letter “D” to the ASolid USB drive which is why one sees “D:\” on the folder and file paths below. Most recently, Nelson accessed the “Quotes” folder on the ASolid USB drive on 1/25/2023 8:20:15 PM¹⁰.

26. Forensic analysis revealed that Nelson used Microsoft Notepad on the Laptop to create a file named “SPARTANBURG CUSTOMER RANKING 2022.TXT” in a folder named “CUSTOMER RANKING REPORT” on the ASolid USB drive on 1/25/2023 8:15:21 PM¹¹

27. Forensic analysis revealed Nelson used Microsoft Word on the Laptop to create a file named “JON NELSON LETTER.DOCX” in a folder named “QUOTES” on the ASolid USB drive on 1/27/2023 11:02:24 AM¹².

28. Forensic analysis revealed that Nelson connected the Laptop to a WiFi hotspot named “JONATHAN's Galaxy S22 Ultra” on 1/27/2023 7:44:27 AM (Local time)¹³.

Conclusion

29. It is my opinion and the evidence is consistent with Jonathan Nelson having copied multiple files to an ASolid USB drive, including his entire Snider email account contents after Nelson had performed a Google search for the term “resignation letter example” on 12/30/2022. Snider then downloaded a total of nineteen files from his Snider Fleet Services Office365 account *after* Mr. Nelson had been terminated from employment by Snider Fleet Services.

30. Nelson connected a Samsung Galaxy A5 smartphone to the Laptop on January 19, 2023, a device to which files can be copied from a computer. Nelson then deleted a reference to this smartphone from the Laptop, notwithstanding my forensic analysis uncovering usage of this smartphone in conjunction with the Snider Laptop.

31. My fees to investigate Nelson’s unauthorized access are in excess of \$5,000.
